Thanks for your review. I thought your comments were really helpful. I think we ran the traps on that point on a prior letter but will confirm.

Hi, Heidi. I truly don't know why, but I did a fine-tooth comb through the doc't, just so you know, and made way to many comments, and way out of my lane, re: possible clarity edits. Trying to bullet-proof vis-à-vis HQ a bit, but that's always fraught, of course.

Also, I'm guessing you're ok with the last page (non-404) "CWA doesn't allow this" point. We'd normally run the WLO traps on something like that in a NEPA letter, but I'll leave that to you, as more likely to know who the appropriate staffer would be, unless you want me to do that for whatever reason. Thanks.
